

Performance Certificate

EN12150

EN12150 Sodium-Calcium Silicate safety glass, thermically tempered.

Description : Clear/Satin CH.SA 10 MM FL Tempered

Characteristics	Value
Class	1C1
FS	79
TL	87
UG	5.6

Testing Laboratory

Stazione sperimentale del vetro
Via Briati 10
30141 Murano (Venezia)

The U coefficient (previously K value) is calculated according to EN673. The emission value is in accordance with EN673 and EN12898. U value tolerance + or - 0.1 W7m2K. Any estimate of acoustic value would be + or - 2db.
